50 Gallon Rain Barrel

\$73.95

Delivered to your home.

To receive discount, order must be placed through Horsham Township.

<http://www.rainbarrelsandmore.com>

These 50 Gallon Rain Barrels are made from used food grade barrels. You can't get much GREENER than that!! Whether your water needs are for plants, gardens, or general use, each barrel is drilled, screened, and fitted for catching water straight from the downspout of your house, garage, or shed. These barrels are designed to be used outdoors, with three overflow connections, a nylon spigot, and a drain plug, and can also be linked together up to 3 barrels per barrel. The barrels have screw on lids, and the overflows are designed to fit any standard garden hose to make it easier to redirect the overflow to where it needs to go. Each barrel has a 50 gallon capacity.
