

July 10, 2018

Dear Customer:

At PECO, we are committed to providing safe and reliable energy for our customers and the communities we serve. As part of our work, we will be upgrading and installing new equipment to enhance the local electric distribution system in your area.

This project is part of PECO's System 2020 plan to invest an additional \$274 million through 2020 to install advanced equipment and reinforce the electric system, making it more weather resistant and less vulnerable to storm damage. This investment is in addition to \$500 million in ongoing system work completed each year, including replacing and upgrading equipment.

About the Project:

- More than \$1,000,000 will be invested to enhance the local electric distribution system for you and your neighbors.
- The majority of this work will occur on area sidewalks and some streets. Work will occur along Goldenrod, Meadowlark, Pheasant Run, Heather, Fawn, Boulder, Hedgerow, Fieldstone, Brownstone, and Horseshoe Lanes also Brownstone, Pebble, Business Center, Carriage and Cobblestone Drives, Cricket, Robin, Blacksmith, and Tree Bark Circles and Country, Witmer, School and Church Roads.
- New equipment, including pad-mount transformers could be installed or replaced as necessary.
- Preliminary design work began in October 2017 and construction is scheduled to begin in July 2018.
- Work will occur from 7 a.m. to 5 p.m., Monday through Friday.
- The project is expected to be completed by October 2018, and work will be performed by a qualified PECO contractor.

Crews may need to temporarily interrupt service to safely complete some of this work. We will work with local residents to ensure they are informed in advance of our activities and any planned interruptions. We will work closely with local officials to minimize the impact on traffic and pedestrians whenever possible. Access for services such as trash removal, student transportation and emergency vehicles will be maintained during construction.

We are dedicated to keeping you informed about our work, listening to your input and modifying plans based on your feedback when possible. If you have any questions about this work during construction, please contact Dan Abbonizio at 484-685-7498 or daniel.abbonizio@exeloncorp.com. For all other questions or concerns, please contact Randi Martin at 215-956-3113 or randi.martin@exeloncorp.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Frank Moffa", with a long horizontal flourish extending to the right.

Frank Moffa,
Director, Regional Electrical Operations, PECO
